Statement of Qualifications and Goals

As a licensed REALTOR® in Northern Colorado since 2018, I bring a proven track record of professionalism, community involvement, and advocacy for homeownership. My career spans from advanced scientific research and higher education to successful career in real estate, where I have consistently prioritized client needs, market expertise, and ethical standards. I hold the Senior Real Estate Specialist (SRES®) designation and am a Certified Real Estate Negotiator (CREN).

My leadership and service extend beyond my real estate career. I have served on numerous professional, educational, and nonprofit committees, including the FCBR RPAC Committee. These experiences have strengthened my skills in collaboration, policy review, and community engagement—skills I intend to bring to the Board.

Goals as a Board Member

- **Strengthen Membership Growth & Engagement:** Expand FCBR membership and actively encourage member participation in events, committees, and community initiatives.
- **Advocate for Affordable Housing:** Work with city leaders and stakeholders to address housing affordability challenges and promote sustainable growth.
- **Support Local Economic Development:** Collaborate with the City of Fort Collins to attract and retain businesses, fostering local shopping and reducing retail leakage to neighboring communities.
- **Protect Property Rights:** Actively defend homeownership rights and work to prevent overly burdensome regulations on landlords while ensuring fair housing practices.

With my combination of professional expertise, community service, and dedication to the REALTOR® mission, I am committed to representing our members and advancing the interests of Fort Collins real estate professionals and property owners alike.
